OLONISAKIN EMMANUEL OLUWAGBENGA
Abuja,Nigeria | **+2349039299570** |olonisakinemmanuel5@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst and Civil Engineer with expertise in extracting insights from complex datasets and translating them into actionable business solutions. Proficient in Excel (pivot tables, graphs, advanced formulas), Power BI, and Tableau, with hands-on experience analyzing sales and marketing data. Skilled in creating visual reports to communicate findings clearly. Combines technical proficiency in Python, GIS, and data analysis tools with strong project management and problem-solving abilities. Adept at working remotely, collaborating across teams, and delivering results under deadlines.

TECHNICAL SKILLS

- **Tools:** Excel (Pivot Tables, VLOOKUP, XLOOKUP, Advanced Formulas), Power BI, Tableau, Structured query language (SQL), Python (Pandas, NumPy), GIS.
- **Data Analysis:** Data Cleaning, Trend Analysis, Predictive Modeling, KPI Tracking
- **Visualization:** Interactive Dashboards, Charts, Graphs, Stakeholder Reports
- **Soft Skills:** Communication, Remote Collaboration, Time Management, Problem-Solving

PROFESSIONAL EXPIERIENCE

Zion Study Center **Abuja, Nigeria**
Data Analysis Intern *Oct. 2024 – Present*

- Analyzed student performance and enrolment trends using Excel (pivot tables, VLOOKUP, advanced formulas) to support decision-making.
- Developed interactive dashboards in Power BI to visualize key metrics for stakeholders understanding by 40%.
- Cleaned and processed raw data to identify patterns in academic outcomes and marketing effectiveness.
- Automated a monthly reporting process, reducing manual effort by 30%.

Key Achievements:

- Enhanced data-driven decision-making by translating complex datasets into clear visual reports.

Federal Capital Development Authority(FCDA) **Abuja, Nigeria**
Construction Site Supervisor Intern (NYSC) *Dec. 2023 – Oct. 2024*
Project: Completion of Roads B6, B12, and Circle Road, Central Area, Abuja
Contractor: Julius Berger Nigeria Plc

- Monitored and analyzed real-time construction metrics (earthworks, drainage, paving), ensuring 95% adherence to project timelines.
- Streamlined subcontractor workflows by analyzing supply chain data, cutting material delays by 20%.
- Collaborated with engineers to model traffic flow patterns using historical data, informing light/manhole placement and improving post-construction traffic efficiency by 15%.

Key Achievements:

- Leveraged data analysis to enhance project efficiency, contributing to the timely completion of critical road infrastructure.

VOLUNTEER EXPERIENCE

Online Lead Instructor, Free Data Analysis Bootcamp **Oct. 2024 – Dec. 2024**

- Designed and delivered curriculum on Excel (Pivot Tables, Advanced Formulas), Power BI, Structured query language (SQL) and data storytelling to 50+ global participants.

- Mentored learners in cleaning, analyzing, and visualizing real-world datasets.
- Emphasized sales/marketing data case studies to align with industry needs.

Online Python Programming Instructor| Free Bootcamp **Oct. 2023 – Dec. 2023**

- Taught Python for data analysis to 50+ global participants.
- Created hands-on projects with real-world datasets

CERTIFICATIONS

Google Advanced Data Analytics Professional Certificate - Coursera (Expected 2025)

Data Analysis Certificate – April 2024

Python Bootcamp – August 2023

EDUCATION

Afe Babalola University **Ekiti State, Nigeria**

Course: Bachelor of Engineering, Civil Engineering July-2023

Academic Standing – Second Class Upper

Relevant Courses: Data Analysis, Structural Analysis and Project Management.

PROJECTS & LEADERSHIP

Academic Project: statistical methods used in concrete analysis

Leadership: Financial Secretary, Nigeria Institution of Civil Engineering Students Affiliate (NICESA).
